Primary Arts: Go & See

School Trip Resources – Curious Journeys

A New Direction has put together three easy-to-use resources that can be used by any adult accompanying children on a trip. They are designed to spark conversations about the environment children are travelling through, and inspire curiosity about the city they live in.

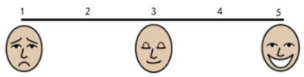

These resources include:

Curious Questions

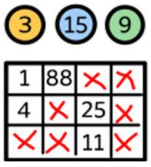

A series of prompts for teachers to use during journeys to and from trips which encourage children to engage more with their surroundings. Each page can be printed and laminated.

Sensory Slider

An activity to encourage children to consider how and what they are feeling during the journey and to rate this on a scale of 1 to 5.

Sensory Bingo

An activity to encourage children to use all their senses with a range of things to spot, to smell and sounds to hear.

These resources are designed for you to ‘pick-up and go’, or to adapt as you’d like.
