

CREATIVITY AT
STOKE

NEWINGTON
SCHOOL AND
SIXTH FORM

WHAT WAS OUR SPECIALISM?

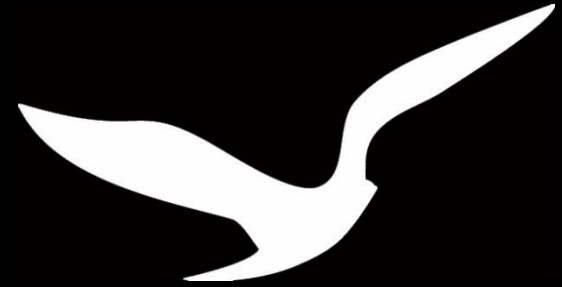

SNS originally designated Media Arts college in 2001
(later followed by Science and Inclusion)

Giving us

- Money
- High profile specialist subjects of Music, Media and Art
- Time
- Equipment
- Staff
- The chance to share and develop expertise
- Partnerships
- Cross curricular projects between specialist and non-specialist
- A timeline of success and a high profile here and abroad

CREATIVITY NOW

- No ring-fenced money
- Much more emphasis on the core subjects and humanities and languages
- Time
- Equipment
- Staff
- The chance to share and develop expertise
- Partnerships
- Cross curricular projects
- Continued success depending on curriculum reviews and funding
- Governing body and parental support

Teaching and Learning handbook

Creative Manifesto:

1. Innovative approaches
2. Experimenting and making mistakes
3. Working collaboratively with students
4. Building and creating outside the norm
5. Learning outside the classroom
6. Reflecting on creativity

WHY TEACH CREATIVELY?

A video by Victoria Emes in
which teachers and students
share their thoughts:

<http://vimeo.com/8261917>

I'M MORE ENGAGED WHEN I'M HAVING FUN

Engagement

Higher level learning

Core Values

Teamwork

Promotes the school to the wider community
Excitement

Work Related Learning

Interacting with the students

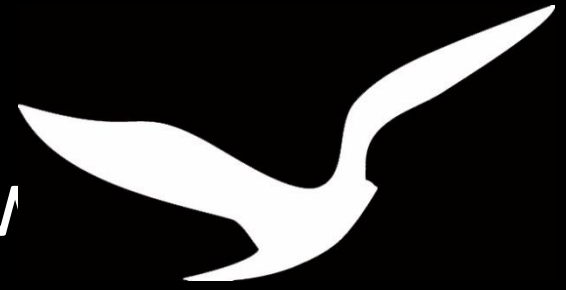

MEMORABLE out of the ordinary

Personal learning and thinking skills

Self managers and reflective learners

They don't just accept they question

CREATIVITY

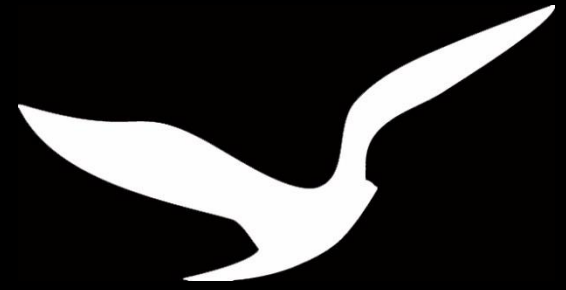

Best thing - the sense of v
together in a creative environment

Aspect to improve on – engaging
all staff in the process

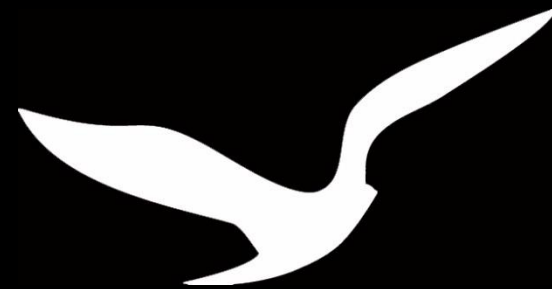

How could that impact be improved –
more joint planning

EXTRA
CURRICULAR
CREATIVITY

THE CUBE IS...

...a visual representation of the volume of a tonne of carbon dioxide at a pressure of 1 atm and a temperature of 15 °C. It is 8.117m high. It is the result of a project, developed with scientist and artist Dr Adam Nieman to illustrate the scale of the greenhouse gas problem. At the time it was built, Britain emitted a 'Cube' of carbon dioxide every 39 days. The world emitted one every 80 days. It is our 'Fourth Plinth,' a space where things happen.

TRIPS AND ENRICHMENT

- New York
- Music Tour
- Theatre
- Shakespeare
- Science week
- etc

THIS YEAR

THE FUTURE CHALLENGES AND OPPORTUNITIES

- Fundraising to improve Music provision and provide instruments to PPI students
- Much more emphasis on the core subjects and humanities and languages - will the arts fit in?
- Less time for extracurricular clubs and rehearsals
- All students to receive a basic cultural offer, no more Alton Towers??
- Equipment that changes every day
- Staff turnover
- The chance to share and develop expertise - UK more so abroad
- Partnerships and work related learning
- Cross curricular projects
- Continued success depending on curriculum reviews and funding
