Overview 2019-20

Data from Trinity shows a decrease in moderations across all levels, over the last financial year. Throughout 2019-20 a total of **6365** awards were moderated compared to **9094** in 2018-19.

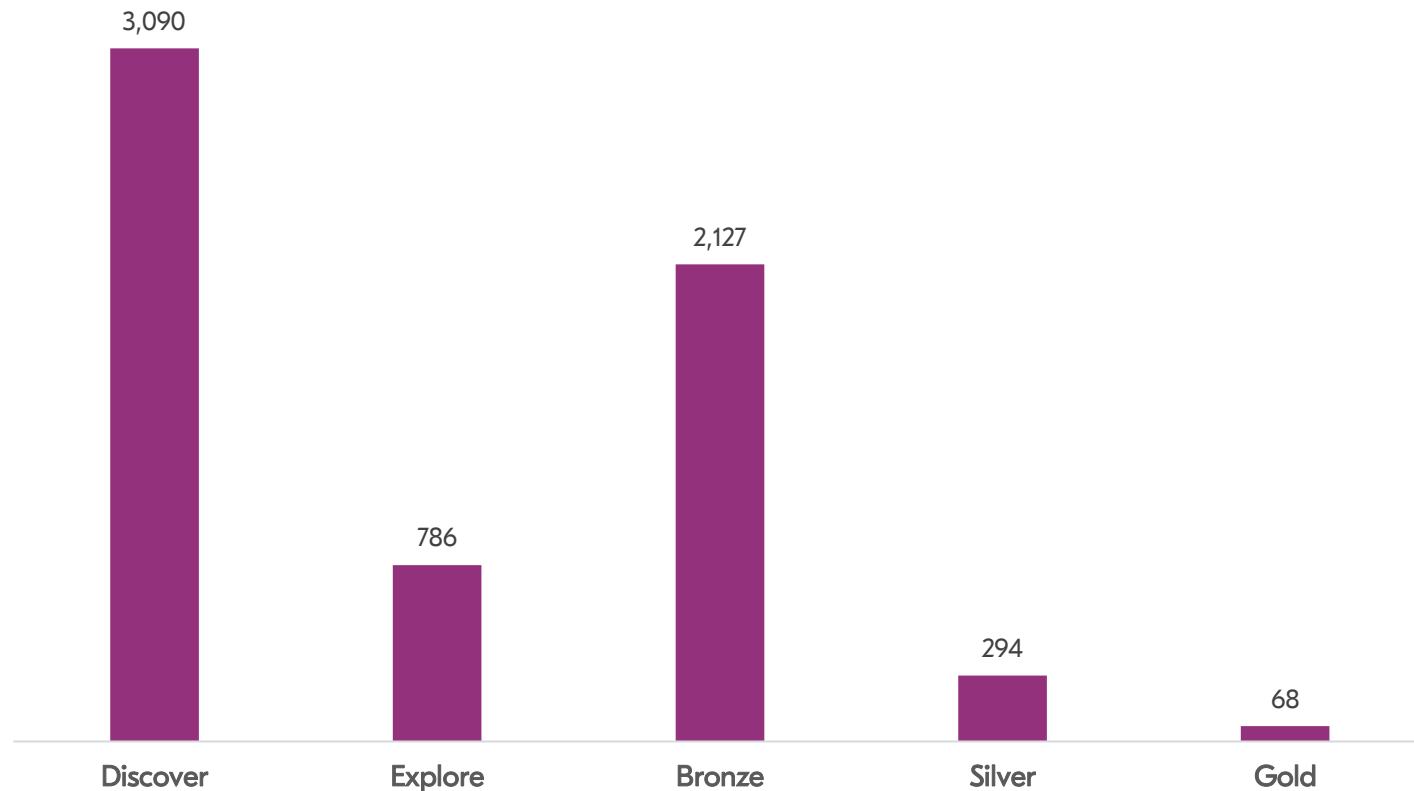

Discover continues to be the most moderated level and Gold continues to have the lowest number of moderations.

Total Moderations by sector 2019- 20

Youth projects, youth justice/ Alternative Provision, and Music Hubs continue to be a priority focus, closely followed by Museums and Heritage, Libraries and secondary / SEND setting. These areas have shown a small increase since 2018-19, however not significant enough.

Arts or media organisations continue to have some of the highest moderation levels.

Many Music Hubs, Secondary Schools and Libraries moderate their Arts Awards via Arts organisations which contributes to high moderation numbers across the arts and media sector.
