somethinelse

content for brands and broadcasters

we're a content design and creation company making stuff audiences love for brands and broadcasters

we create award winning radio, TV, games and online content

we do this by offering content solutions regardless of platform

radio producer

technical project manager

runner

production manager

broadcast assistant

script writer

front end developer

sound engineer

digital producer

digital producer

back end developer

audio editor

tv editor

executive producer

social media producer

what do we need?

highly motivated (even if they don't know it)

wide range of backgrounds (a constant struggle)

can do, must do attitude (we move fast)

developer skills(learning through making)

passion!! (we can teach the rest)

aspiration (belief is half the battle)
