

# A NEW DIRECTION

We create **opportunity**

## OUR VALUES

This document is an easy read version of A New Direction's values.

A New Direction have 5 main values.

These guide us in the work we do together, with young people and with other organisations.

Our values help us know how to behave and how to treat the people we are with.

## **EQUITY**

We believe in equity.

This means we believe in fairness and that it is most important to support people who experience barriers to opportunities.

## **CONNECTIVITY**

We connect ideas with people and the different ways they work.

By bringing people together, we can learn and move forward. Together we can make a bigger difference.

## **TRUST & RESPECT**

We listen to and respect the voices of everybody we work with.

We aim to build trust so we can work well together and feel supported in reaching our goals.

## **CREATIVE CULTURE**

We think creatively and believe that everyone can be creative.

Our creative culture means we let people dream big and think of new, exciting ways to do things.

## **KINDNESS**

We act with kindness and generosity.

This means we listen and that we are open, welcoming and supportive.
